Enjoy your freedom and make the best of every season, whether hot summers or frosty winters: the Lyseo TD is always ready for action with the new Thermo-Floor double floor. The same floor will shield you from the cold and provide relief in the heat, giving you a pleasant sensation underfoot at all times, even when walking barefoot in the vehicle. And that's not all: the Thermo-Floor construction is also designed to allow a level floor all the way from the cab to the bedroom door, for an end-to-end feel-good factor.

in season*

*"Experience the beauties of

Provence

More than a success story ... a reference.

Who doesn't know him? The Lyseo TD is the undisputed star. Since its market launch in 2016, the semi-integrated has convinced many customers across Europe of its charismatic and practical advantages.

Its most striking feature is, of course, the Thermo-Floor double floor that enables year-round use. In addition, the Lyseo TD offers a variety of options that contribute to its great success. Traditional but also atypical floor plans and with Harmony Line equipment, so that the right Lyseo TD is guaranteed for everyone.

"The Lyseo TD is one of the icons of Bürstner history, just like the Delfin or the Elegance. We have seen how the model has increasingly established itself as a reference in the semi-integrated segment year after year, and that makes us very proud. Its success rewards the work of our engineers and once again underlines the innovative strength of our brand."

Harmony

— LINE —

The Lyseo TD doesn't compromise on style. Harmony of shapes and colours, solidity of materials, quality of finishes: nothing is left to chance so that upon boarding, love at first sight is immediate. Among the ten floorplans, some stand out for their atypical layout, such as the TD 744 and 745 versions with rear seating or the latest addition to the range, the TD 644 without front seating. Bold, but always perfectly well thought out: thousands of satisfied users can attest to it!

The Delfin

As a semi-integrated Bürstner, the Delfin has been a great success since its market launch in 2003. At that time, the colorful exterior design was particularly daring and exciting him unmistakable - a true icon among the Bürstner vehicles.

And because it is best to tell good stories several times: 17 years later, Bürstner is launching a revised version of this motorhome - with a new look and new equipment. The dolphin is a tribute to the successful predecessor and is characterised by modernised lines, a contemporary interior and a trendy look.

"Customers keep telling us about their wonderful experiences with the Delfin - for them it is much more than a motorhome! With this we are continuing the success story ... We have stayed true to the previous model, but of course have modernised it at the same time and adapted it to current customer requirements."
